A personal message from the tour organizer...

I invite you to join us in exploring the indigenous beauty and wisdom of the Mayan people. You will be led through the unique tapestry of Guatemalan **civilization, past and present, by Mayan elders. You will experience Guatemala's** unmatched natural beauty. You will receive healing experiences grounded in indigenous spiritual practices. In short, this trip will change your life.

What makes this trip unique is a rare opportunity to spend time in the rich Mayan landscape with women and men Mayan Elders. They heal, provide deep insight into personal and worldly problems, and share ceremonies that are very much a part of their culture. All Elders are **respected healers, known for their abilities to see blockages in a person's physical, emotional and spiritual** bodies. All participants can benefit from private healing session or readings with the Elders.

In addition to the Mayan Elder's healing influence, we will experience authentic Mayan culture through the guidance of Grandmother Elizabeth and the other Elders. The Mayan civilization thrived throughout much of Guatemala for over 2000 years before the Spanish arrived in the early 16th century, and their active influence is still a vibrant part of the culture. You will witness one of the most colorful and intense indigenous cultures alive today. The **Mayans' most well-known** contributions to civilization are an advanced mathematics and astronomy. Central to their cosmology is a calendar system called the Tzolkin. The Sacred Calendar is the main entry to the thinking of the advanced civilization that existed in the Western world before the arrival of the Europeans. This Mayan spirit still influences virtually every aspect of modern life.

Of course, Guatemala also offers one of the most spectacular and beautiful natural history destinations in the world: virgin jungles intermingled with beautiful lakes, rivers and volcanoes; caves, valleys and ravines; mountains and plateaus. Its ecosystems contain countless species not found anywhere else today. Many of these natural regions are also sites of enormous archeological significance, centers where **traditional Mayan culture and monuments of colonial architecture mix with nature's lush beauty.**

In addition to the history, culture, natural beauty and spiritual teachings, sacred fire ceremonies will be guided throughout our journey. You will find healing at many levels – physical, emotional or maybe even discovering your higher purpose. Our group will experience this remarkable journey together, yet you will find both support and respect for private space within our circle.

Please, take a moment and see yourself journeying with us to this enchanted land. Through experiencing the spirit of the Maya, you will learn, heal, grow and be awed by an ancient wisdom that lives in us today. This is, indeed, the trip of your lifetime.

All my best,
Joseph R. Giove

Mayan Journey Itinerary—2015

DAYS ONE, TWO & THREE

Guatemala City to the Ancient City of Tikal

We all meet in Guatemala City where we fly to Flores on Day Two. Flores is just miles outside the ancient city of Tikal. On our way to Tikal we will perform our opening ceremony at the caves at Actun Kan. Here we will initiate the journey with a ceremony that calls forth the ancestors, the four directions and the elements to open our hearts and minds to receive the wisdom and healing of our journey. Then after lunch and a swimming in the warm waters of El Remate, we will head to Tikal.

Tikal is a place of wondering, not only at the engineering accomplishments of the Maya, but also at the jungle splendors of the Peten region in Guatemala. The site of Tikal is a national park where native flora and fauna still flourish relatively undisturbed. At Tikal we'll have excellent opportunities to bird- and animal-watch parrots, howler monkeys, gray foxes and red coatis. We'll sit atop a pyramid, gaze at the Great Plaza and roof combs that rise above the sea of jungle and imagine the times more than a thousand years ago that the plaza was alive with activity and the city was surrounded by cultivated fields and dotted with homes.

Tikal is set in the jungle canopy. This ancient city today consists of over 3,000 buildings, including impressively tall temples that tower above the forest. At its peak some 1,500 years ago, Tikal was home to an estimated 100,000 Mayans.

DAY FOUR

The Ancient City of Uaxactún

Uaxactún (**Siaan K'aan**, "**Born in Heaven**", its ancient name) is located in the north of Petén, Guatemala. One of the most notable series of buildings at the site is that

Artist rendering of Uaxactún Temple

formed by structures that are aligned north-south and form an astronomical observatory, the first found in the Maya world. From an observation point on a nearby pyramid, the early Maya could watch the sun rise behind these buildings and mark the summer and winter solstices (the longest and shortest days of the year) as well as the vernal and autumnal equinoxes.

Uaxactún Excavation

After a morning visit to Uaxactún we return to the airport in Flores for our departure to Guatemala City and transfer to Antigua. We will spend the night in Antigua.

DAYS FIVE & SIX

The Historic Colonial City of Antigua

Antigua may be the most outstanding and best-preserved colonial city in Spanish America. People visit Antigua every

View of Agua Volcano through Antigua

year from around the world to enjoy its natural beauty and historic monuments.

The Spanish Colonial style permeates every part of the town: its houses, churches, squares, parks and ruins, also its traditions and folklore. Antigua is a city of charm and color where you can see an overwhelming variety of attractive, handmade products that honor the traditions of generations of artisans.

Antigua is also noted for its crafts: terracotta, ceramics, wrought iron, silver and jade jewelry, wooden sculptures, carved colonial-style furniture, a great variety of traditional costumes and weavings, figured stone, brass, jarcia, traditional toys and much more.

Antigua sits in a mile-high valley overlooked by the spectacular Agua Volcano (2.3 miles high). A little further away are two other volcanoes, Acatenango, and the always smoking Fuego.

DAYS SEVEN & EIGHT

Lake Atitlan, Panajachel and San Juan La Laguna

Day Seven we travel to, explore and enjoy the breathtakingly beautiful Lake Atitlan and surrounding villages. On the way we stop at the market Chichicastenango and a famous church where Mayan and Christian services are practiced side-by-side. Lake Atitlan is the sacred lake where the ancient Maya

performed their mathematical studies and their sacred Calendars. We'll travel across the lake by boat to San Juan La Laguna, visit a few women cooperatives to see their weaving and the process of creating the vibrant, all natural colors of their textiles.

Lake Atitlan Flanked by San Pedro Volcano

We'll also have free time around the lake as well as for Elder teachings.

Lake Atitlan is located in the mountainous area in the Guatemalan highlands. The Lake is a natural wonder of blue, wind-tossed waters set against a backdrop of three 10,000-foot volcanoes: Toliman, Atitlan and San Pedro, towering on the southern sky.

DAYS NINE, TEN, ELEVEN & TWELVE

The Ancient Cities of Quiriguá & Copán

The morning of Day Nine we begin our journey to Copán, in Honduras, through Guatemala City. We'll spend one night in Guatemala City then leave early in the morning on Day Ten for Copán via motor coach, stopping at Quiriguá. Quiriguá was inhabited since the 2nd century A.D. and has an impressive series of carved stelae and sculpted calendars.

We will spend Day Eleven in Copán where we will perform ceremony at this sacred site.

Copán is a tranquil oasis of ancient culture and sublime nature nestled in the foothills of western Honduras, just 7 miles from the Guatemala border. Copán has been renowned for its magnificent and fairly preserved Mayan temples, and is a designated World Heritage Site believed by some archeologists to be the cultural center, the Paris, of the Maya world. The Archeological Park of Copán is just a half-mile east of town, situated amidst a tranquil forest along the Copán River. We will enjoy a peaceful stroll along a tree-shaded trail to arrive at the park. We will explore ancient temples, the renowned Sculpture museum and the tunnels. There will also be time to wander the nature trails through an extraordinary tract of preserved forest.

On Day Twelve we return to Guatemala City via motor coach. We'll overnight Day Twelve in Guatemala City.

DAY THIRTEEN: The Journey Home or Extended Stay

Lake Atitlan or Antigua

From our hotel in Guatemala City you will be transported to the airport for your return flight home. Some guests may prefer to stay longer in the area, for example return to Antigua or Lake Atitlan area, which we can help arrange upon request.
